Recommendations

Mike worked in our development team at **Fisikal** for nearly 2 years. Our application is very complex and we found that Mike was a great addition to our team. He has a very good flair for CSS and front end work and as a result we were able to utilise these specific skills to our advantage, as well as working well with complex functionality.

It is a great shame that Mike is no longer part of our team and he will be surely missed.

Обо мне

Пишу хорошо читаемый код. Уверенно знаю фреймворк Rails. Следую лучшим практикам Ruby / Ruby on Rails. Хорошо владею HTML и CSS. Также имею опыт работы с такими технологиями, как MongoDB, PostgreSQL, Sass и CoffeeScript. Знаком с Sinatra. Пользователь Mac и Linux. Не представляю работу в команде без использования GitHub.

Ищу интересную работу с гибким графиком, которая позволит развиваться, получать новый опыт, работать над нетривиальными задачами в компании хороших людей.
