

МИХАИЛ АНДРИАНОВ

Ruby on Rails разработчик

Обо мне

Пишу хорошо читаемый код. Уверенно знаю фреймворк Rails версий 2.* и 4.*. Следую лучшим практикам Ruby / Ruby on Rails. Хорошо владею HTML и CSS. Пользователь Linux. Не представляю работу в команде без использования GitHub.

Ищу интересную работу с гибким графиком, которая позволит развиваться, получать новый опыт, работать над нетривиальными задачами в компании хороших людей.

Рекомендации

Mike worked in our development team at **Fisikal** for nearly 2 years. Our application is very complex and we found that Mike was a great addition to our team. He has a very good flair for CSS and front end work and as a result we were able to utilise these specific skills to our advantage, as well as working well with complex functionality.

It is a great shame that Mike is no longer part of our team and he will be surely missed.
